Spring Forward

You'll lose an hour of sleep, but it just might be worth it! Daylight Saving Time returns on Sunday morning, March 11 so set your clocks forward and begin enjoying that "extra" hour of daylight!

POLITE PETS

Pets can make wonderful companions, but not everyone is a pet owner or pet lover. Be a responsible pet owner and accompany your pets when outside and keep them on a leash. Walk your pets in designated areas and always clean up after your pet. If you wish to adopt a pet, check with the office before bringing your pet home. The community has specific rules and regulations regarding pets.

Jump Into Spring With a Little Extra Cash!

Simply refer someone you know to live at our community. We will pay you a resident referral fee of \$300 after they move in. It's that easy to make money! Call the office for details on our great referral program.

WEATHER WATCH

Winter is almost over, but sometimes spring can bring troubling weather as well. With hot and cold fronts conflicting often during the spring, strong storms and tornadoes may occur. We want you to be prepared. Make sure you have a plan for severe weather.

- Designate an interior room (perhaps a closet or bathroom) for everyone to gather.
- Keep a working flashlight and radio handy.
- Listen to the weather reports carefully.
- Never underestimate warnings or watches. It is always better to be safe than sorry.

Gesundheit!

Are you prone to sneezing, coughing, wheezing, itchy eyes, or nasal congestion? Springtime often aggravates those with allergies, but there are also many possible allergens in your home. House dust may contain dust mites, food particles, animal dander, bits of plants and insects, and bits of fabrics. Here's some tips on how to eliminate common household allergens and pollutants:

- Vacuum two or three times a week. It's best to use a vacuum designed especially for people with allergies. Vacuums are now made with HEPA (high-efficiency particle air) filters and may be the best choice.
- Wash all bedding weekly in very hot water.
- Keep the air dry. In summer, use an air conditioner. In winter, if humidity is a problem, use a dehumidifier.
- Check the filters regularly and clean and replace when needed.

SPRING CLEANING

Spring is the perfect time to clean house! One of the toughest things about spring cleaning is getting started and finishing such a big feat.

- Start by making a list of chores you plan to tackle. Crossing completed items off the list will motivate you to keep going.
 - Make it fun! Turn on your favorite music. Open the windows to allow in fresh air. Make energy-packed snacks to nibble on throughout the process.
 - Enlist the help of friends, family or professionals.
 - Consider donating, disposing or selling items you don't use so you don't have to clean them again next year.
- After you're finished, sit back and admire your clean home. We appreciate all your hard work to keep your home and our community sparkling clean!

Office Hours

Monday-Friday
9:00am - 6:00pm

Saturday
10:00am - 2:00pm

Sunday
Closed
